

FYFER LAND CHOSEN  
BY HOSPITAL BOARD

Four Acres on Corner of  
Broadway and Cousins  
Is Site.

PRICE IS \$10,000

Location One of Highest  
Points in City—Architect  
Not Chosen.

At 11:30 o'clock this morning the Board of Trustees of the Boone County Public Hospital selected the old J. Th. Fyfer home at the southeast corner of Broadway and Cousins street, two blocks east of Stephens College for Boone County's new \$100,000 hospital.

The property is now owned by H. H. Tandy, who offered it when the bids were first asked.

His price of \$10,000 for the four-acre site was accepted by the board.

The Board of Trustees of the hospital first met just one month ago tomorrow to choose a site for the hospital. Forty-two written bids were sent to the board and this morning while the board was in session some other sites were offered and taken into consideration.

The board that chose the site for hospital in Callaway County spent almost seven months choosing the location. That property is just a little larger than one acre. The hospital is now in the course of construction. The board in Audrain County chose a site that was less than an acre in size.

## Site Has High Location.

The property chosen by the Boone County board is located on one of the highest points in the city. There are many shade trees on the land, a house, a barn and some small buildings. It is possible that the house will be used for a nurses' home after it has been moved from the present location to make way for the new building.

On this land the first Boone County Fair grounds was located. It was later sold to Paul Hibbard, a Columbia dentist, who sold it in 1880 to J. Th. Fyfer. Fyfer lived in the house which he had built there until 1907, when he died. His heirs sold it to H. H. Tandy, who has occupied the house since. This property, according to the contract, will be turned over to the board on or before September 1.

## Water and Light Facilities Good.

In choosing the site the board went to the offices of the water and light department as well as to the city engineer's office. The facilities for water, sewerage, gas and electricity are excellent, according to N. T. Gentry, secretary of the board. The national and state highway runs in front of the site. It has paved streets on two sides and an alley in the rear.

Ira T. G. Stone, A. J. Estes and H. H. Tandy were before the board this morning telling of the facilities which their properties offered.

Before the board adjourned H. H. Banks and N. T. Gentry, members of the board, were chosen to investigate the matter of obtaining an architect. To date, three architects have offered plans, but none has been accepted.

The next regular meeting of the board will be held the first Tuesday in July. It is possible that a special meeting will be called earlier than that.

Administration leaders expect the result to be a great flood of letters showing that the people regard the Knox resolution as a partisan effort to destroy President Wilson's influence abroad.

When the orders arrived most of the students of the last class had already gone home and made other arrangements for the summer.

The R. O. T. C. camp at Camp Funston will include members from the R. O. T. C. of nine states, Kansas, Wyoming, Colorado, Missouri, North Dakota, South Dakota, Iowa, Nebraska, and Minnesota. JUNE 21 "DER TAG"  
FOR GERMAN NATION

Allies Free to Resume Hostilities If Germans Do Not Accept Treaty.

EBERT HOLDS PLACE

President and Chancellor Defeat Attempt to Oust Them From Party Council.

By FRED S. FERGUSON  
(United Press Staff Correspondent)

PARIS, June 14.—"Der Tag" for the Germans will be Saturday, June 21, a week from today. There is every indication that within a week their answer will be known.

This is based on the assumption that the reply to the German counter proposals will be submitted Monday, and that the enemy will be given five days in which to discuss it. As understood in high American quarters, this period also includes the three days for the renunciation of the armistice as provided in the original terms of that document. If the German do not accept the new conditions, the armistice will be declared at an end after the first two days, and the Allies will be free to resume hostilities on Saturday.

The supreme blockade council met today to take up the consideration of economic measures to be undertaken against Germany in case she refuses to sign.

There are in all 222 cases, sixty-seven of which are criminal cases. There are three murder cases: Ewell Watson charged with killing Albert Sutton, Reed Canton charged with killing C. B. Digges and the case against Shannon Hawkins, driver of the car in which Mrs. Maggie McGrath was killed in a wreck on Providence road.

## HOP OFF FOR IRELAND

British Aviators Start on Non-Stop Transatlantic Flight.

By United Press.

ST. JOHN'S, Newfoundland, June 14.—Off on an attempt at a non-stop flight over the Atlantic from Newfoundland to Ireland, the British Vickers airplane left St. John's at 12:13 p. m. today (New York time). The machine, with Captain John Alcock at the wheel, made a good start, rising from the ground after a run of 150 yards. The plane swept over the city and disappeared over the sea in a northeasterly direction.

After the start the Vickers scudded close to the ground, then rose gradually to an altitude of 1,000 feet.

A great crowd of spectators gave Alcock and his navigator, Lieutenant A. W. Brown, Royal Air Force, a cheer as the plane hopped off.

There was a strong west wind, which will probably help the aviators over the first of their perilous voyage. Navigator Brown expected to follow the general course laid out by Hawker, it being the most direct route.

The Vickers was equipped with a wireless which operated successfully over a wide range in preliminary trials.

The machine weighs 7,000 pounds. Mail which it was hoped would be delivered at the London Postoffice is being carried.

By United Press.

ST. LOUIS, June 14.—Commercial telegraph business at 23,000 railroad offices in the United States and Canada was paralyzed this morning when the railroad telegraphers threw their strength against the Western Union and Postal Telegraph companies.

The order of E. J. Manion, president of the Railway Telegraphers Union, became effective at 6 o'clock this morning. All railway operators refused to handle commercial messages until further instructed. The order was obeyed in every railway office throughout the country, according to word received at the office of President Manion this morning.

With the addition of new forces to the union ranks the action of the railway telegraphers assured an entire change in the strike situation this morning. The railway telegraphers have thrown their fund of more than three million dollars into the strike, according to announcements.

Western Union officials said this morning that their business was but slightly handicapped by the order. They said that the business handled through the railway telegraphers is inconsequential. The Postal Telegraph Company maintains independent offices and will not be affected.
